

## **The BOFA International Conflict Minerals Policy**

**All BOFA suppliers are required to supply only 'conflict-free' components**

*Under this policy, all suppliers are expected to supply materials to BOFA International LTD and/or BOFA America's Inc. that are 'conflict free'*

**BOFA suppliers are expected hold an active written Company Conflict Minerals Policy**

*Suppliers to to BOFA International LTD and/or BOFA America's Inc. must adopt a Company Conflict Mineral Policy regarding the use of conflict minerals, implement management systems with the support of all Shareholders and Directors alike.*

### **Supplier Questionnaires**

*All BOFA International LTD and/or BOFA America's Inc. suppliers are expected to complete the BOFA Supplier Questionnaire (as above) and ensure their suppliers are compliant. The final smelter/refinery is to be identified. The survey information must then be passed back down the supply chain.*

- BOFA International LTD and BOFA America's Inc. are aware that as with most printed circuit boards (PCB's) there is a small amount of tin present in the PCB element of BOFA equipment.
- This BOFA International LTD and/or BOFA America's Inc. Conflict Minerals Policy is in conjunction with all other BOFA International LTD and/or BOFA America's Inc. Policy. This includes the BOFA Environmental Policy and the RoHS WEEE and REACH requirements.
